Comments:

I have lived in the bay area all my  
life (71 yrs) and safe drinking water and the  
eco balance in the Delta has been a concern  
of mine. Fresh water needs to flow through the  
Delta - We don't need more dams. We need to protect  
our water resources and the environment. The use  
of toxins and things that pollute our environment needs  
to be controlled - Our future generations are counting  
on you - Don't let my grandchildren down -
